**General Provisions for Ordering**

<p><b>Regulations</b> The electrical installation is subject to the applicable VDE regulations for places of assembly. This regulation must be observed.</p> <p><b>Voltage</b> Type of current and protective measures in the congress center TN network 3x400/230V, 50 Hz Protective measure: zeroing with separate zero (N) and protective conductor (PE) from the main distribution board.</p> <p><b>Main connection</b> In order to ensure a reliable electrical supply for the events in the Baden Baden Congress Center, the trade fair connections are laid and assigned to the trade fair stands by the contract electrician. Main connections can be loaded according to the specified fuses.</p> <p><b>Halogen spotlights</b> According to VDE 0108, the use of halogen spotlights on open lines is not permitted. Lines under 1 mm<sup>2</sup> must not be used.</p> <p><b>Fees Prices</b> include electricity consumption.</p>	<p><b>Violation / Liability</b> Unauthorized connections are not permitted. In the event of incorrect installations, the contract electrician reserves the right to block these connections. The exhibitor is liable for damage and disruptions resulting from non-compliance with the general provisions on this form.</p> <p>For reasons of preserving evidence, complaints can only be received from the contracting company for the congress center during the event at the exhibition stand.</p> <p>Claims for damages, for whatever legal reason, cannot be asserted against the Kongresshaus, the organizer or the Kongresshaus contracting company. Liability for lost profits is generally excluded. Place of jurisdiction is Baden Baden.</p> <p><b>Monitoring/standby/booth inspection</b> Specialist staff will be available during the event to eliminate faults in the supply lines and the booths. These services are included in the connection price.</p>
