Conditions and information

concerning electrical installation work in the Kongresshaus Baden-Baden.

1. Power supply system

TN net, 3 x 400/230V, 50 Hz, protective earth (PE) from main distributor.

Operating power supply units or fuses must be accessible (wall divisions etc.)

2. Provision of main connections

Services concerning point 1 overleaf may only be carried out by the Kongresshaus contractor.

Main connections can be loaded according to the stated safeguards.

3. Stand installation

The Kongresshaus authorises the installation of electrics using your own labour and, in accordance with point 2 overleaf, if qualified personnel from the exhibitor are used or if the exhibitor contracts a trade fair stand construction company to conduct the work. In this case, the Kongresshaus contractor is authorised and obliged to check the electrical installation work within the area of the stand. Power will not be supplied to stands where the installation work is deemed improper.

With regard to operating safety, as well as accident and fire hazards, all appropriate laws, rules, technical regulations (e.g. VDE 0100 and 0108), as well as the technical guidelines and specific participation conditions of the Kongresshaus Baden-Baden are to be observed.

4. Stand installation by the Kongresshaus contractor

The prices for stand installation from the main connection are determined on a parts and labour basis.

Hourly charge	technician	€ 52,00
----------------------	------------	---------

For night time, Sunday and public holiday work the agreed additional charges will also apply. The raised invoice for manual labour is, according to German Construction Contract Proceedings (VOB) to be paid in full immediately upon receipt.

5. Liability and Court of Jurisdiction

Due to reasons concerning the conservation of evidence, complaints can only be accepted by the Kongresshaus contractor during the duration of the event. Claims for damages, whatever the legal reason, cannot be brought against the Kongresshaus, the organiser or the Kongresshaus contractor. Liability for lost revenue is excluded.

The court of jurisdiction is Baden-Baden.

6. Inspection / Stand duty / Stand checks

To eliminate problems with the main feed cables as well as disruptions on the stand, qualified personnel are on hand for the duration of the event (including set-up and breakdown days). This service is included in the electrical connection price.
